

Sunkits[®]

High performance solar solutions

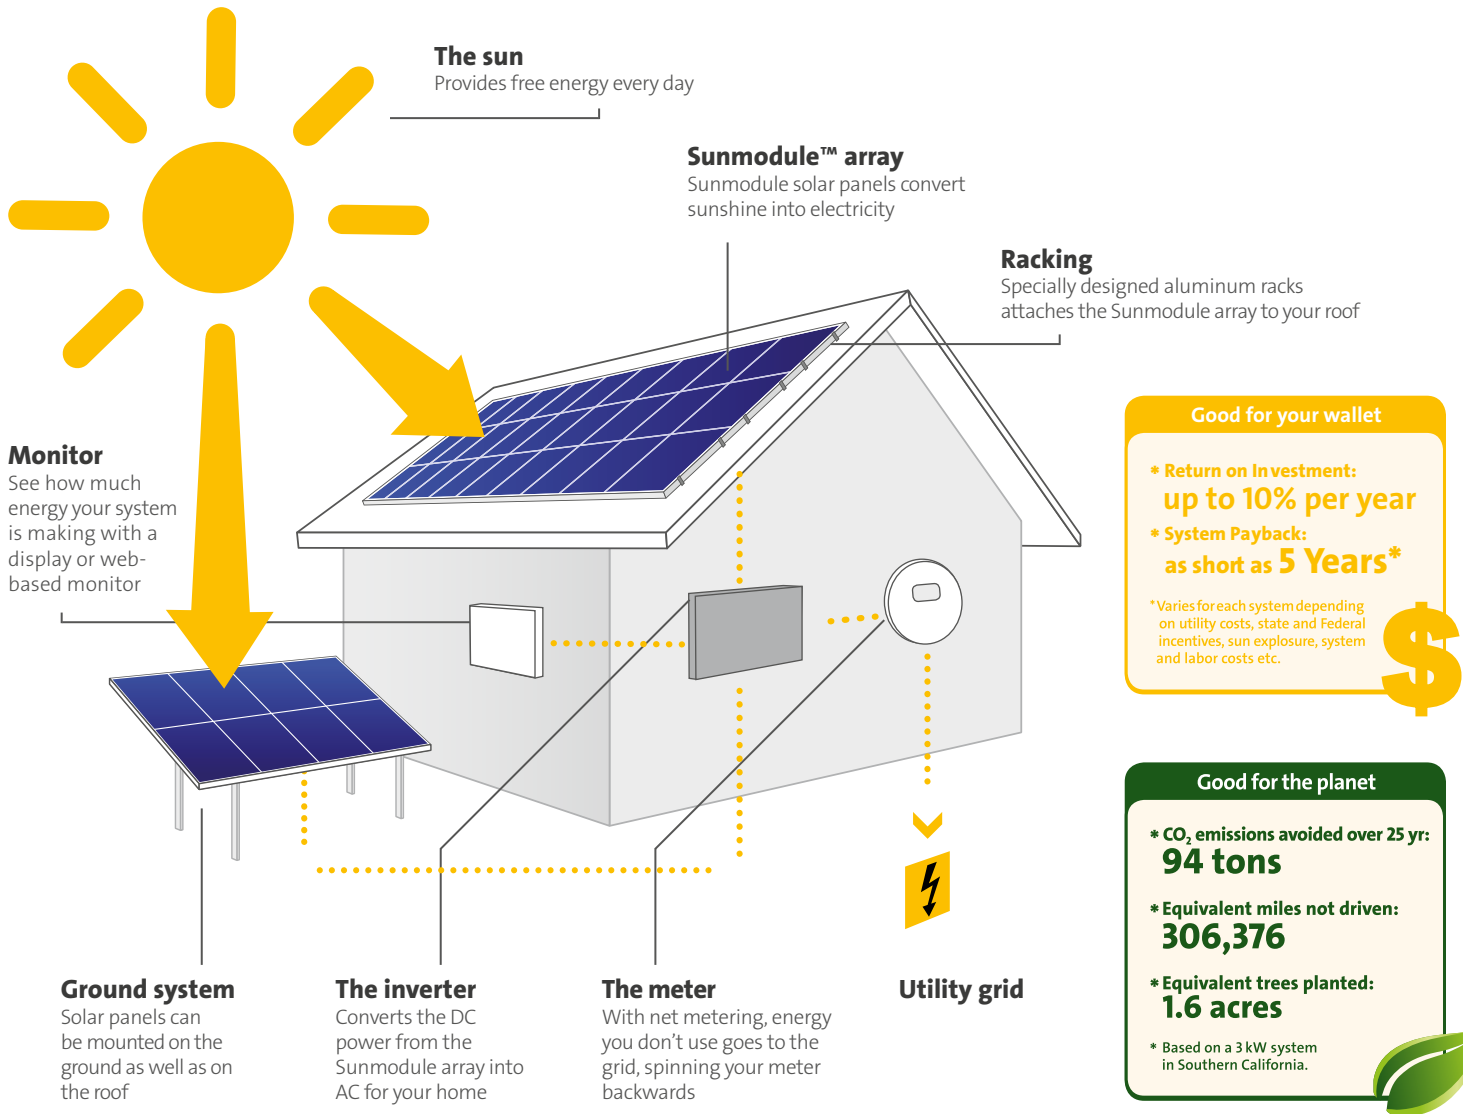

MADE IN USA

America's largest solar manufacturer since 1975

Let the sun pay your electric bill

Sunkits® – put it all together for you

- 1** High-performance system
We start with our industry-leading Sunmodule™ solar panels and combine them with top of the line inverters and racking, specially selected for the highest system-level performance.
- 2** Custom-designed for your home
Each Sunkits system is custom-designed at the factory for your home and your family's energy use.
- 3** Financing
Financing and system options are available to fit your budget.
- 4** Professional installation
SolarWorld's network of Authorized Installers are factory trained and audited to ensure that your system is installed safely and effectively.

Highest energy performance

Sunmodule⁺

- Plus sorted for maximum power
- 39.41" X 65.94"
- Available in mono, poly and mono black
- 25-year production warranty
- 10-year workmanship warranty
- End of use recycle program

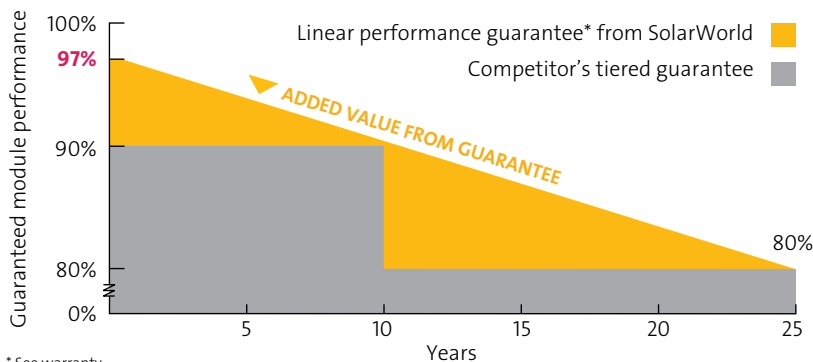

Better energy performance, more money in your pocket

By producing the highest quality solar panels for over 35 years, SolarWorld can guarantee maximum performance. That's why we offer a 25-year linear performance guarantee and a 10-year workmanship warranty on all Sunmodule Plus panels, ensuring that your investment is protected for years to come.

In addition, SolarWorld's unique plus sorting method ensures that you receive the watts you pay for. With plus-sorting, SolarWorld delivers only modules that have greater than or equal to the nameplate-rated power. These power ratings are backed up with the factory flash report.

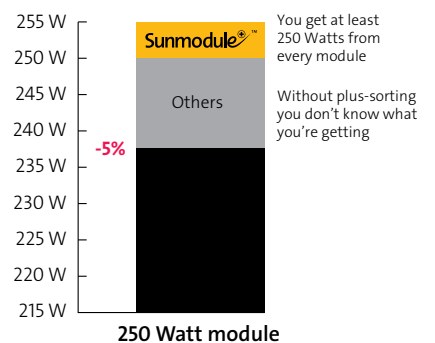

Best warranty in the industry

* See warranty statement for details

Clear added value compared to standard guarantees

Get all the watts you're paying for

250 Watt module

Three steps to your **Sunkits**® system

- 1 Call SolarWorld at **855-GO-SOLAR** or visit our web site **solarworld.com** and we'll have one of our Authorized Installers set up an appointment with you for a free in-home estimate. After we evaluate your home's solar potential, you'll receive a detailed Sunkits cost proposal and financial analysis showing how much you can expect to save.
- 2 Order your Sunkits solar electric system and schedule your install date then sit back and relax while your system is professionally installed.
- 3 Claim your state and federal incentives, then watch your electric bills shrink.
