SOLARWORLD SUNBOX 12 INTRODUCTION

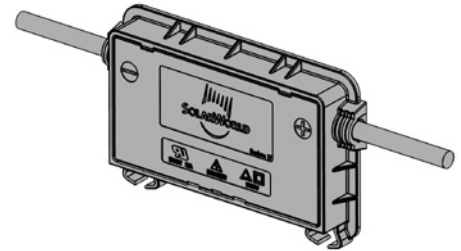

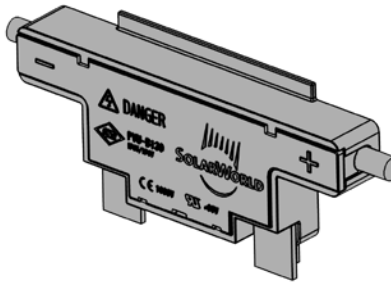

September 9, 2014 | Issue: 1030

SolarWorld has qualified the SB12 junction box for use in production as an addition to the current B139 junction box. The SB12 will be used interchangeably with our current B139 junction box beginning in Q3 of 2014. Modules featuring either J-box are interchangeable and can be used within the same string.
