

SolarWorld Industries America Inc. Health, Safety, and Environmental (HSE) Policy

SolarWorld is a world leading manufacturer of photovoltaic cells and modules that are used for sustainable power solutions. We are committed to conducting our business in a manner that minimizes impact on the environment and risk to our employees' health and well-being.

SolarWorld fulfills this commitment by:

- Complying with all applicable Health, Safety, and Environmental (HSE) regulations as well as "other" HSE requirements.
- Conducting operations in a hazard-free and environmentally sound manner.
- Preventing pollution by broadly applying the principles of reduce, reuse and recycle.
- Promoting HSE awareness and personal responsibility among all employees.
- Promoting the purchase of energy-efficient products and services, and the design for energy performance improvement.
- Providing open and clear communication and necessary resources at all levels of the organization.
- Striving to ensure that vendors and suppliers agree to conduct HSE best management practices.
- Pursuing continuous improvement in our HSE performance.
- Establishing a framework for setting and reviewing HSE objectives and targets.
